An interactive technique

Based on a system of questions and answers, this technique helps the learner naturally improve his/her capacity for oral communication.

- **Introduce new linguistic elements**
- **Introduce new grammatical structures**
- **Develop speech and vocabulary**

Dynamic and motivated teachers

All of the teachers at ALC have been carefully selected, not only with regard to their university training and overall competence but also for their ability to establish a relationship of trust between their students and themselves. All of our teachers are native speakers and have been specifically trained **in teaching foreign languages as a second language**. They take their mission to heart, working hard to provide individualized attention and personal support and thereby ensuring the success of each and every student.

Classes for the Masses

A language course is more effective when each student actively participates in the lessons. That is why our groups consist of only **3 to 9 people/level** (max. 12 people in the summer); the principal objective at **ALC** is for learners to obtain a solid foundation in their target language as quickly as possible. Our classrooms have been organized according to the method we use, meaning each class is equipped with the appropriate materials (television, DVD player, Video, projector, blackboard) in a comfortable and structured environment.

Welcome to Académie Linguistique Charlemagne

Our school is specialized in teaching both the official languages of Quebec, **French** and **English**, as well as preparation for the **TOEFL iBT, TOEIC, TCF** and **TFI** exams. We offer our students effective, quality services in a comfortable and friendly environment.

Together we share a single objective: **your success**

Learning a foreign or second language can be overwhelming. At first, a new language is often just an indistinguishable blur of sounds, intimidating students and making them want to abandon their studies. At **ALC**, our expertise is in helping students overcome these difficulties.

**Choosing ALC means choosing
experienced professionals**

The following people trusted us...

Thank you for the courses, thank you for your patience. I just passed my immigration interview.

French course FLE. Margarita L. Russia

At the beginning, I was scared because my English was very bad, but that was just an old nightmare! I learned and improved my English and now I can understand and speak easily.

English course ESL. Florence E. France

I like this school because when I come here I learn a lot. I feel good at this school. I like the teacher too.

English course ESL : Maasooma Khalil Canada

A relaxed ambiance and thanks to an energetic team, the topics are easily understood.

English course ESL : Richard I . France

The courses are given in such a friendly ambiance that makes the learning easier. The subjects given in class are various, which allows you to enlarge your vocabulary in a consistent way. **ALC's** pedagogy and methodology is well adapted according to the number of students per class.

English course ESL : Tania T France

Being in contact with students from different cultures and countries, I have learnt French at **ALC**. The courses have a great academic level, dynamic and successful teaching methods in written and oral speech.

French course FLE : Paulino . Mexico

The group classes are full of life, interactive and creative enough to allow us to have a real learning with no excess weight.

English course ESL : Nicolas Vernet. Nurse France

Good school! Small groups! A lot of exercises! Good teaching level !

French course FLE : Maria . Poland

I took a French intermediate level course. Benefits included small classes which allow you to have more time with the teacher and fosters a better learning environment. Classes are well-structured and encourage speaking, grammar and listening.

French course FLE : Tingi Ko. Canada
